

Affinity Diagram for Research

John, Laura, Helen
9/25/03

DIAGRAM NOTES:

- When groups are positioned one over another, no hierarchy is intended.
- Gray boxes with bold titles are labels
- larger boxes are drawn around related groups
- Arrows imply an additional relationship to the one shown by the physical grouping
- Highlighted boxes have naming issues and/or suggested changes
- Boxes with red dots are areas for which we discussed the rationale, based on moderator questions
- Green items: group would like to defer placement of these to members of their workgroups
- Pink items: these should be added
